Helping Local Businesses Secure Grant Funding

It can often seem an impossible task to work your way through the funding maze. Demand for any type of funding is high and competition fierce, and no more so than sourcing and securing relevant grant funding.

A grant is a great way to get a project off the ground and is one of the best sources of funding available. Usually there is no interest to be paid and funds are generally non-returnable (unless specified terms and conditions are not met) and it's for these very reasons that they are notoriously difficult to obtain.

Grant applications can involve a considerable amount of time and effort in convincing the awarding body that you deserve their support. What you don't want, is to do all the hard work of applying, be awarded a grant and then find out at the Due Diligence stage that you didn't meet all the conditions. However, the appointment of an independent financial advisor, such as Blue Sky Corporate Finance, can assist immensely in this process by helping to ensure that you understand and comply with the criteria for the grant and ensure the application is fully and correctly completed, or by performing Due Diligence when the grant is offered. This can make the difference between the success and failure of a grant application.

With limited amounts of funding available and funds awarded based on those applications with the greatest merit, **it is vital you make yourself stand out from the crowd to ensure success.**

Where to go for extra help?

With grants continuously being introduced Blue Sky Corporate Finance pride themselves on ensuring they keep informed about the many different types of grants available. We ensure your application demonstrates relevance to the funding you are seeking, make certain that your application meets the objectives of the funder and demonstrates the credibility of your business.

Each of these are important factors - for example, funders may decline applications despite a project being approved if there appears to be a risk where the business is concerned.

So, if you need help finding the right grant scheme or assistance with completing the application forms to ensure you stand out from the crowd then please contact our team of friendly and experienced advisors who will be happy to discuss your requirements in more detail.

Those first impressions are key to the success of your application.
